# Aveiro STEAM City
Closure Event

PROGRAM

TEATRO AVEIRENSE
MARCH 16TH 2022
14h00 – 17h00

This event aims to present the main results of the Aveiro Steam City project, co-funded by the European Regional Development Fund – ERDF, included in the "Urban Innovative Actions" programme.

The implementation of a STEAM Education strategy in all municipal public schools, the development of training programs for technical staff of the companies in the region, the creation of the first 5G Living Lab in the country, the presentation of the Urban Platform to support City Governance or the results of the case studies in the areas of Energy, Environment and Mobility, are just some examples of the work that will be presented at Teatro Aveirense.

With a total budget of 6,1M€ (4,9M€ ERDF), the project is led by the Municipality of Aveiro in partnership with Altice Labs, the Institute of Telecommunications – IT, the University

of Aveiro, INOVARIA and the Association for a Centre for Studies in Sustainable Development - CEDES.
The event will also feature an exhibition area where you can find in greater detail information about all the activities implemented over the past three years.
At the closing session we will have the presence of the Mayor of Aveiro - José Ribau Esteves, as well as the Director of the Urban Innovative Actions programme - Tim Caulfield, among other guests.

We look forward to welcoming you.

PROGRAM

14h00 – Welcoming

14h30 – Opening

José Ribau Esteves (Mayor, Municipality of Aveiro)
Ana Abrunhosa (Minister for Territorial Cohesion, Portuguese Government)

14h50 – Aveiro STEAM City

Moderation: André Cester Costa (Municipality of Aveiro)

I. STEAM Education

Aveiro implemented an innovative and integrated educational strategy in all levels of education, based on the STEAM approach. This program includes the Tech Labs at schools, developed in partnership with Aveiro University or the implementation of a STEAM resources platform – UBBU.

. Daniela Sousa (Municipality of Aveiro)
. Pedro Pombo (Aveiro University)
. Patrícia Lamas (Basic School of Alumieira)

II. Training

The work developed in the scope of the Labour Observatory by the University of Aveiro and INOVARIA will be presented with special emphasis on the training programs developed to update the competences of our labour force and to increase of competitiveness of our companies.

. Marlene Amorim (Aveiro University)

. Paulo Marques (INOVARIA)

. Carla Semedo (Municipality of Aveiro)

. Tiago Marques (Bootcamp Cadet)

III. Tech, Services & Apps

In the urban centre of Aveiro there is now a living lab that allows technology-based companies, startups or R&D centres to test and develop innovative products in the fields of the Internet of Things and Smart Cities, due to the investment of the Telecommunications Institute, Altice Labs and Aveiro Municipality.

. Susana Sargento (Institute of Telecommunications)
. Francisco Fontes (Altice Labs)
. Rita Santiago (Ubiwhere)

IV. Challenges

The Urban platform to support City Governance developed by Altice Labs will be presented, as well as the results of three case studies in the areas of environment, mobility and energy. These are just three examples of more than 15 innovative projects that were developed and tested in Aveiro in order to improve the quality of life of our citizens and visitors.

. João Bastos (Altice Labs)

. Ana Miranda (Aveiro University)

. Pedro Rito (Institute of Telecommunications)

. Simão Vieira (Municipality of Aveiro)

Conclusion:

. Pedro Soutinho (CEDES)

. André Cester Costa (Municipality of Aveiro)
