## 2. Video Links

Please supply links to two the following videos:

### 1. 90-second video about yourself and your approach

This video should be an introduction to the individual or team applying for the Open Call. They should talk about their experience and their vision, as well as what they envisage their approach will be to filming and creating a creative video highlighting the MTF Aveiro Labs / Sparks. We are looking for something that expresses something about the video maker's own creativity in an artistic way in response to a brief and not just a document or highlights reel of the event.
