

Aveiro Tech City Living Lab

**ANNEX VI
Term of Acceptance**

ANNEX VI

TERM OF ACCEPTANCE AND WORK PLAN FOR THE PROJECT (*project designation*)

IN THE CONTEXT OF THE USE OF THE AVEIRO TECH CITY LIVING LAB

The project *name*, represented here by its promoter *name*, with identification (Citizen's Card / Passport) *no.*, residing in *full address*, starting work on *day/month/year* and completion on *day/month/year*, will use the assets of the Aveiro Tech City Living Lab (ATCLL), in accordance with the Usage Rules of the aforementioned ATCLL and its Annexes (which are an integral part of this Term of Acceptance).

By signing this Term of Acceptance, the promoter declares that acknowledges and accepts the conditions described therein for the implementation of the project *designation*, using the assets of the ATCLL.

Obligations and responsibilities of the promoter

The project promoter, together with the rest of the team, undertakes to:

- a) Comply with the provisions contained in the ATCLL Usage Guidelines and its Annexes, as well as the other guidelines given by the organisation, and also to provide information describing its project and results achieved, whenever requested.
- b) To make its best efforts to rigorously implement the Work Plan included in this Term of Acceptance, fulfilling dates, stages and the objectives and expected results.

ATCLL assets to be made available for project implementation

Information to be included in this section, written by the project team (in accordance with the Application Form) and validated by the Municipality of Aveiro:

1. Data that the project intends to access.
2. What is the purpose for which they need the data identified in 1).
3. ATCLL assets you wish to use.

4. Description of how the infrastructure will be used for project development.
5. If applicable, the technical changes that need to be made to the Infrastructure in the *set-up*, implementation and testing phases of the project (this information should be validated in advance with the technical team responsible for ATCLL).
6. If applicable, the explicit indication that the data collected by equipment owned by the project and installed in the ATCLL infrastructure may or may not (indicate the option) be accessed by other ATCLL users (identifying which: e.g. researchers, entrepreneurs, startups, SMEs, Academy, Municipality...) raw or after being processed (indicate which options).

Detailed description of the Work Plan

Chronological description of the set of tangible objectives and activities relevant to the implementation of the project (it should naturally include the identification of the expected duration of the project and its activities, the expected forecast of the starting month and may preferably interrelate the human, material and technological resources needed to implement each of the activities). It may even include a timetable or Gantt chart for the expected implementation of the project.

As project promoter (*project designation*), I, the undersigned, acknowledge and accept the benefits as well as the responsibilities of using ATCLL for its implementation, as evidenced by my signature.

[place], [day] of [month] of [year]

Representative of the Municipality of Aveiro,
representing the Aveiro STEAM City
Project Consortium
