

2nd Edition

Code Hero

FAQs

FAQs

First and foremost, what is the CodeHero?

CodeHero is an Introduction of Computational Sciences online course, allowing the development of software using JavaScript language, ideal for those who want to immerge in the coding world. Programme's contents will teach foundation tools to pursuit a future career in ICT business.

What is achieved with this course?

The program is appropriate for all beginning coders, as it uses visual representations to teach foundational mathematical and computational ideas, providing them programming fundamentals and solid bases such as values, variables, cycles, conditions, functions, strings, arrays and objects, which will be essential to learn more deeply any other programming language.

Who can apply for CodeHero?

Access to training is free and available to all interested parties.

What languages are courses offered in?

All the contentes are only available in English.

Do I need previous programming experience?

No. The formative entity is more than ready to get you started in the logical arts of programming and algorithmic thinking. However, there is a "but". Participants should be able to read, write and speak in English as it is the universal code language.

What is the average time to conclude the course?

One month.

Does CodeHero offer certificates?

After a successful conclusion of the training programme each participant will be granted with a digital certificate.

What is CodeHero Challenges?

CodeHero Challenges is a competition based on CodeHero Course. CodeHero comprises 65 exercises, combining different number of points, with a global score of 1832 points. Participants can visualize the cumulative number of points while progress to the next exercise.

Who are the Beneficiaries?

CodeHero Challenges beneficiaries are:

- A. High School students and Professional Schools students from the municipality of Aveiro;**
- B. Other citizens, aged 18 or older, based in Aveiro and with interest to participate.**

Participation from professional coders and programmers will not be considered.

How can I apply?

Accessing the course from the website www.aveirotechcity.pt and sending the requested information and documentation to the email: aveirotechcity@cm-aveiro.pt.

What are the CodeHero Challenges prizes?

- A. High School and Professional School students:
 - 1st Place - 200,00€
 - 2nd and 3rd Places - Honorable mention - 100,00€
- B. Non-Students (General Population):
 - 1st Place - 200,00€
 - 2nd and 3rd Places - Honorable mention - 100,00€

Where can I find more information?

All the documents and relevant information are at www.aveirotechcity.pt.
